WASTEWATER

On Thursday, August 27, 2015 you are potentially going to agree to increase the sewer prices an additional \$25-30/mo. for approximately 1400 customers. As reported on their 2nd quarter financial reports, EPCOR is making plenty of money with their other subsidiary's and may have to use the US assets as a write off of losses. The Mohave wastewater area consists of many lower income households. Many retired customers rely on social security income monthly and cannot bear the burden of the increase. I am a single income family making below \$45,000. Making too much for assistance but too little to pay increased sewer costs. We have already disconnected cable and phone service to make ends meet. Spreading the costs over the entire EPCOR customer base reduced costs for all districts and should continue. \$55/mo. is already too much to pay and should not be increased. Please keep rates the same and use that as a factor in future cases. Thank you for your consideration.
